Consortium Happenings

Lab Tours Showcase Photonics Innovation at LUX Q2 Meeting

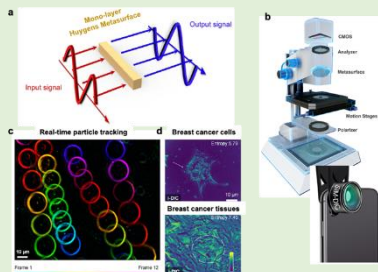

Lab tours at two TPI research centres were a highlight for attendees of the LUX 2nd Quarter Members' Meeting of 2024, on 9 May, as they got a firsthand look at exciting research developments at the Centre for Optical & Laser Engineering (COLE) and Centre for Opto-Electronics and Biophotonics (COEB)...[more](#).

LUX Strengthens Ties with Germany's Optics and Photonics Industry

LUX, a close partner of the Singaporean German Chamber of Industry and Commerce (SGC), recently supported the SGC as it hosted an optics and photonics delegation of 11 companies from Germany....[more](#).

Research Highlight

Flat Optics for Computations, Information Processing and Advanced Microscopy

Flat optics is an emerging scientific frontier, where the artificially designed, thin nanostructures are specially arranged to modulate the characteristics of electromagnetic waves. This field encompasses the development of individual optical elements and their integration into systems for real-world applications...[more](#).

Industry News

AceXon Announces Exclusive Partnership with TOPTICA

AceXon proudly announces the exclusive partnership with TOPTICA Photonics AG, a global leader in lasers and photonics. This collaboration represents a significant milestone for AceXon and underscores its dedication to providing the highest quality photonics solutions and services to its customer. [Find out more.](#)

IPOS International

The value of innovative companies is driven by the intellectual property (“IP”) and intangible assets (“IA”) they create. However, many companies face challenges when it comes to managing and leveraging IP/IA, mostly due to limited resources and lack of awareness of key IP/IA driving the business. The lack of understanding of IP landscape in the fields of technology can also lead to business risks arising from infringement and inability to protect innovations. Patent data can reveal technology insights to guide innovative efforts as shown in this [report on Graphene technologies.](#)

IPOS International as the wholly owned subsidiary of IPOS provides access to IP resources and expertise to address your IP management needs. You can reach out to IPOS International for a [complimentary IA chat](#) to better understand how you can safeguard your key intangible assets.

Upcoming Events

LUX Quarterly Members Meeting (Q3)

- 9.00 am to 2.00 pm at NTU Innovation Centre
- Highlights: Tech Talks from NTU, NUS & A*STAR, Guest speaker from IPOS International, Company presentations, Tech Demos, Networking lunch.

LUX Quarterly Members Meeting (Q4)

- 9.00 am to 2.00 pm at NTU Innovation Centre
- Programme: To be announced

ASIA PHOTONICS EXPO (APE) 2025

- Venue: Marina Bay Sands Expo & Convention Centre, Level 1
- 3 days trade show with 15000 Sqm exhibition space
- Photonics@SG Conference
- International photonics delegation visit
- www.asiaphotonicsexpo.com
